

# YOLO COUNTY SERVICES GUIDE

The Yolo County Services Guide is a new resource to help residents access various services from federal, state and county agencies, and local nonprofit organizations. The sections are organized by categorical need and service type. The guide is color-coded, so it is clear which jurisdiction or organization provides the service. For example, on page four the “Basic Needs” category contains a service section called Immunization Services and Clinics. These services are provided by the Yolo County Health Department and the Yolo Family Resource Center, a nonprofit organization. A categorical table of contents is provided below.
