A Note from Yolo County Librarian and Archivist, Patty Wong

It takes a village to raise a Library....

Thank you for being a part of Yolo County Library’s growth and transformation into the community focused, responsive service it is today. Your participation as a resident, community partner, supporter, consultant, collaborator, and volunteer, is critical to our ongoing communal success.

Community and Celebration come to mind as we continue to build on the good work of the leadership and support of the past, and the vision of our current and future leadership. The events represented in this virtual history of the Yolo County Library capture significant moments in our evolution as a community institution.

In the past three years the Library celebrated our 100th Anniversary. Together we built and renovated three libraries in three years. To address the growing needs of South Davis residents, the Library established a satellite branch at the Marguerite Montgomery Elementary School, where public library services operate out of the school library two days a week. A book drop has been established at Patwin Elementary in West Davis – and we continue to work to meet the needs of all Davis residents.

Our staff and our Friends, with their experiences, ideas, creativity and innovation, have brought many accolades to our community:

More than $500,000 has been awarded to Yolo County to develop and improve library services;

Yolo County Library was the first library to establish 2-1-1 services in the state of California.

Service to Yolo County residents continues to climb, with record numbers participating in our expanding programs for teens and adults. More than 1.5 million people are expected to enter our doors this year; many more make use of our virtual services, including enhanced Wi-Fi. With your support, we will continue to:

Facilitate community visioning
Increase broadband in rural areas
Strengthen and diversify fiscal resources
Expand services through partnerships

Again, a hearty thank you for your wisdom, your visits, your encouragement and advice and suggestions to improve YOUR library.

Yolo County Library Early Literacy Story Times

I want to let you know how your program helped my son. He is making progress in Kindergarten. For example, when the teacher reads a book, he understands and remembers the story. The teacher says he is like a sponge and absorbs everything. Now he enjoys reading and I am happy. Thank you for giving your time for the kids.
