How to prepare meds for disposal in the bins at these host locations:

1. At home, remove, scratch off or **black-out personal information** from the containers to protect identity.
2. Just before drop-off, remove pills from original containers and **place containers in your recycling bin**.
3. Just before drop-off, **place pills in a clear zipper bag***. Keep liquids & creams in original containers.
4. Bring zipper bag & any liquids or creams into one of the locations above and **place in bin** – it is that easy!

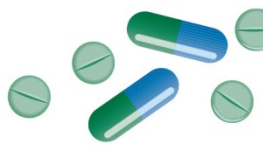

* Medications should remain in original child-proof container until ***just prior*** to drop-off.
