#### 1) WELCOME & INTRODUCTIONS

- Emily welcomed the group and around the table introductions were performed.
- Emily reviewed the website.
- The Community Health Assessment will be redone in 2019. Hospitals are also required to do a needs assessment. This year, the cycles for the needs assessments are aligned and Yolo County will be collaborating with Dignity and Sutter.

#### 2) DATA SHARING

- See Dashboard at [www.HealthyYolo.org](http://www.HealthyYolo.org) for updated data.
- **Consumer Perception Survey Measures**

Consumer Perception Surveys are mandated to be implemented during a one-week period in May and November as part of the Mental Health Plan. These surveys are administered by both HHSA and partners. The Survey is broken into seven domains, which is where these measures are pulled from. There are four types of surveys; adult, older adult, children, and families.

The bulk of services are provided by four agencies but it is unclear the total number of agencies that provide services.

There was a discussion on adding a measure regarding how many surveys were returned vs. how many were returned with responses.

#### 3) PROGRAM SHARING

- **Kellymarie Chen:** The MHSA Three-Year Expenditure Plan was approved by the Board of Supervisors. In that plan were many contracts, which are in various points of the process. The program is looking at ways to collect more relevant data from contracted providers.
- **Steven Nowicki:** Tonight is the Farmer's Market at Woodland Hospital from 4:30 – 7:00 pm.
