Local Mental Health Board
Regular Meeting: Monday, June 25, 2018, 7:00 PM – 9:00 PM
AFT Library, Community Conference Room
1212 Merkeley Ave., West Sacramento, CA 95691.

All items on this agenda may be considered for action.

CALL TO ORDER -------------------------------------------------7:00 PM – 7:10 PM
1. Welcome and Introductions
2. Public Comment
3. Approval of Agenda
4. Approval of Minutes from May 21, 2018
5. Member Announcements
6. Correspondence: None

TIME SET AGENDA-----------------------------------------------7:10 PM – 7:40 PM
7. Maternal Mental Health Presentation – Anna Sutton
   Director, Public Health Nursing, HHSA

CONSENT AGENDA -----------------------------------------------7:40 PM – 8:10 PM
8. Mental Health Director’s Report – Karen Larsen
   a. Continuum of Care Workgroup
   b. Governor’s 18/19 Update
   c. County 18/19 Budget
   d. Homelessness
   e. Community-Based Points of Specialty Mental Health Services
   f. Yolo County Substance Use Continuum of Care
   g. Substance Use Disorder Services Fiscal Year 2018-19 – Adult and Perinatal Substance Use Programs
   h. Child Mental Health Services
   i. Psychiatry Staffing
   j. Data - 2017 Consumer Perception Survey Results (Spring and Fall)

REGULAR AGENDA ---------------------------------------------8:10 PM – 8:45 PM
10. Board of Supervisors Report – Supervisor Don Saylor

If requested, this agenda can be made available in appropriate alternative formats to persons with a disability, as required by Section 202 of the American with Disabilities Act of 1990 and the Federal Rules and regulations adopted implementation thereof. Persons seeking an alternative format should contact the Local Mental Health Board Staff Support Liaison at the Yolo County Health and Human Services Agency, LMHB@yolocounty.org or 137 N. Cottonwood Street, Woodland, CA 95695 or 530-666-8516. In addition, a person with a disability who requires a modification or accommodation, including auxiliary aids of services, in order to participate in a public meeting should contact the Staff Support Liaison as soon as possible and preferably at least twenty-four hours prior to the meeting.
12. Future Meeting Planning and Adjournment – James Glica-Hernandez

b. [Long Range Planning Calendar](#) Discussion and Review

c. [Next Meeting Date and Location](#) – August 27th, 2018, from 7:00pm - 9:00pm. Bauer Building, Thomson Conference Room, 137 N. Cottonwood St. Woodland, CA 95695.

I certify that the foregoing was posted on the bulletin board at 625 Court Street, Woodland CA 95695 on or before Friday, June 22, 2018.

Iulia Bodeanu
Local Mental Health Board Administrative Support Liaison
Yolo County Health and Human Services Agency
Item 4. Approval of Minutes from May 21, 2018
Local Mental Health Board
Meeting Minutes
Monday, May 21, 2018, 7:00 – 9:00 PM
Putah Creek Conference Room 111 East Grant Ave. Winters, CA 95694

Members Excused: Martha Guerrero, Don Saylor, Laurie Ferns, Ben Rose, Robert Schelen, Reed Walker, Karen Larsen

Staff Present: Samantha Fusselman, Deputy Mental Health Director and Manager of Quality Management Services, HHSA
Sandra Sigrist, Adult and Aging Branch Director, HHSA
Laurie Haas, Chief Deputy Public Guardian, HHSA
Iulia Bodeanu, Administrative Liaison to LMHB, CAO

CALL TO ORDER

1. Welcome and Introductions: The April 30, 2018 meeting of the Local Mental Health Board was called to order at 7:08 PM. Introductions were made.

2. Public Comment
None

3. Approval of Agenda
Motion to approve: Richard Bellows Second: Antonia Tsobanoudis Vote: Unanimous
Abstentions: None

4. Approval of Minutes from April 30, 2018
Discussion: Minutes to be amended with considerations to the previous presenter, Sandra Sigrist and Leigh Harrington, edits were sent out to the administrative liaison and updated in the minutes.

Motion to approve minutes with the intention to have edits implemented: Bret Bandley Second: Richard Bellows Vote: Unanimous Abstentions: None

5. Member Announcements: Antonia Tsobanoudis’ son is graduating from High School

6. Correspondence: Jail Visitation

The Davis Enterprise had a report on jail practices and the utilization of computerized visitation rather than face to face visitation. According to June Forbes, family support is essential to the jail population. James Glica-Hernandez stated that there is a need for someone from the sheriff’s department to speak with the LMHB and encouraged board members to generate questions to send prior to the presentation. Nicki King suggested doing this after the election, as the leadership in the sheriff’s office might change. James Glica-Hernandez urged that the group have a structured discussion at the August or September meeting.
TIME SET AGENDA

7. **HHSA Public Guardian Presentation** by Laurie Haas, Chief Deputy Public Guardian, HHSA

Members of the LMHB presented the following questions to the Chief Deputy Public Guardian. Richard Bellows asked how the department is funded. Laurie Haas stated that the Public Guardian is funded through the general fund and under the social services budget in HHSA. The Public Guardian generates some revenue from fees through court accounting. Through better record keeping and time tracking there is better revenue and expenditure accounting occurring.

James Glica-Hernandez asked clarification on those individuals denied conservatorship because the families are the appointed conservatorship officer, Laurie Haas stated that usually the two reasons that conservatorship is denied is because the individual does not meet the criteria by letter of the law or there are reasonable accommodations to the conservatorship. James asked if it was possible to differentiate those conservatorships that are held by the county and those that are held by the family. Laurie said for cases that come through the office it is possible to provide that information. LPS and Conservatorships are usually the last resort for individuals.

Richard Bellows asked if there is a substantial estate and there is evidence of self-dealing by the family. Laurie Haas stated that there is a case investigator that is assigned to ensure that the conservator is adhering to regulations. The Public Guardian’s office also works with APS to determine if there is evidence of abuse, injury or harm to the individual, and APS is able to respond immediately.

Nicki King asked what the metrics are for assessing how well the department is doing. Laurie Haas said that the Public Guardian is working on expanding their database and technological capacity to assess this. The frustration with the current system is to get statistics from a given date. Increasing the reporting features into the current system and this is part of the correction plan generated from the audit. The department is working on getting useful statistics and implementing results based accountability measures within the department. A checklist for meeting with conservatees has also been developed so that data matches across the various assessments. Nicki King also asked what the indicators of failing health are, such as an early warning system for declining health of a conservatee. Laurie stated that their direct supports are the best resource for conservatees, so making sure that conservatorship officers are communicating with those individuals in the facilities often.

CONSENT AGENDA

8. **Mental Health Director Report** by Samantha Fusselman, Deputy Mental Health Director, HHSA

   c. Yolo Family Services Agency – Antonia Tsobanoudis wanted to congratulate those involved and the County on the handling of the closing of the Agency.

   e. Governor’s May Revise – Antonia Tsobanoudis asked about the breakdown of the funding and how much of the funding will be continuous and how much the allocation for Yolo County will do. Samantha Fusselman stated that the breakdown of funding has not yet been announced.
First Responders Mental Health Urgent Care – The first responders initiative was designed to provide an alternative location where law enforcement or paramedics would be able to bring patients to the HHSA clinic. However, there is a law that prohibits individuals from being delivered only to emergency rooms. The challenge is that EMTs are not able to currently deliver clients to the clinic. HHSA is anticipating having nurse practitioners starting in August and will anticipate having more clients when have prescribers on site. AB1795 is in committee now determining where paramedics can deliver patients.

REGULAR AGENDA

9. Election of Officers

All positions are open. Motion to elect current members into their current positions. James Glica-Hernandez as Chair, Nicki King as Vice-Chair and Reed Walker as Secretary/Treasurer. First: Antonia Tsobanoudis Second: Bred Bandley Vote: unanimous. James said that serving on this board is the highlights of his life and as times goes on the board is getting more organized and looking a more issues that reflect the important work we are doing. Supervisor Don Saylor is pleased with the vibrancy and efficacy of the board.

10. Name Change Discussion

Discussion: The Board discussed the benefits of changing the board’s name and discussed the various iterations of the board’s name.

Motion to change the board’s name from the Yolo County Local Mental Health Board to the Yolo County Mental and Behavioral Health Board First: Richard Bellows Second: Nicki King Vote: Unanimous Abstentions: None

James will look into the logistics of the name change and the development of the bylaws within an ad-hoc committee with the following members: Nicki King, James Glica-Hernandez, Bret Bandley, Reed Walker.

11. Board of Supervisors Report – Supervisor Don Saylor

• None

12. Chair Report – James Glica Hernandez

• None

PLANNING AND ADJOURNMENT

13. Future Meeting Planning and Adjournment: James Glica-Hernandez

• Long Range Planning Calendar Discussion and Review.

• Next Meeting Date and Location – May 21, 2018 from 7:00pm to 9:00pm at the AFT Library, Community Meeting Room, 1212 Merkeley Ave. West Sacramento, CA 95691.

Motion to adjourn the meeting First: Richard Bellows Second: Nicki King Vote: Unanimous Abstentions: None. The meeting was adjourned at 9:05 PM.
Item 7. HHSA Maternal Mental Health Presentation
Why Maternal Mental Health Matters?

The landscape and current efforts to address the mental health of mothers.

Prepared for
Local County Mental Health Board

June 25, 2018
7:00 PM - 9:00 PM

Arthur F. Turner (West Sacramento) Branch
1212 Merkley Avenue
West Sacramento, California 95691

This presentation is prepared by
the Yolo County MCAH
programs with funding and
support from Federal Title V,
Title XIX, CDPH and Yolo
County.
Objectives

- Overview the terminology and numbers associated with maternal mental health disorders

- Be introduced to the full impact of maternal mental health across the life course of mothers and children

- Be introduced to the full human and economic costs of maternal mental health disorders

- Increase awareness the National, State and local efforts actively addressing maternal mental health disorders
Perinatal depression, which includes major and minor depressive episodes that occur during pregnancy or in the first 12 months after delivery, is one of the most common medical complications during pregnancy and the postpartum period, affecting one in seven women.

Considerations as we move forward...

- **TERMINOLOGY**
  - Maternal mental health (MMH) versus perinatal mood & anxiety disorders (PMAD)
  - “postpartum” versus “postpartum depression”
  - Postpartum depression or psychosis? (suicide & intrusive thoughts)

- **SCREENING**
  - Yolo County Data 2013-2015 Maternal Infant Health Assessment
  - What does it really tell us? (2016 Yolo County Provider Mapping Project)
“The period prevalence of depression among women is 21.9% during the first postpartum year”

https://jamanetwork.com/journals/jamapsychiatry/fullarticle/1666651 (May 2013)

In California every year half a million babies are born

- 1 in 8 births are in CA, so what we do in California really matters for the health & future of our NATION

- ~109,000 (21.9%) women will experience depression within the first postpartum year

- ~220,000 (mother/infant – 21.9%) individual lives will be affected by depression within the first postpartum year
What does a 21.9% period prevalence rate of depression within the first year postpartum mean for Yolo County’s moms and babies?

It means that EVERY YEAR….

- ~ 500 Yolo County Mothers will experience depression within the first year postpartum (2017 Birth Rate of 2265 live births)
- ~1000 Yolo County Mother & Babies will be affected by a maternal mental health disorder not including the hundreds and thousands siblings, partners, family members, friends, employers and community members that a woman is a mother is connected to….

AND for our Moms and Babies on Medi-Cal (40% Medi-Cal birth rate in Yolo County), who are at documented and significantly higher risk….

- 200 Yolo County Mothers will experience depression within the first year postpartum
- 400 Yolo County Mothers & Babies will be affected by a maternal mental health disorder within the first year postpartum
**Table 1. The Impact of Maternal Depression on Women, Children, and Families**

<table>
<thead>
<tr>
<th>Impact on birth outcomes</th>
<th>Impact on child’s health and behavior</th>
<th>Impact on parenting</th>
<th>Impact across life span for depressed adult</th>
<th>Impact on family</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.4 times more likely to have a premature delivery</td>
<td>More likely to have attention deficits</td>
<td>Less satisfied in their parenting role</td>
<td>Average 6 fewer years of education</td>
<td>Partners of depressed mothers often experience unhappiness and dissatisfaction</td>
</tr>
<tr>
<td>4 times more likely to deliver a low birth weight baby</td>
<td>Trouble regulating emotions and behavior</td>
<td>More irritable in parenting</td>
<td>Less likelihood of marrying</td>
<td>Family members often lose the support of depressed mothers and experience an increase in stress</td>
</tr>
<tr>
<td>More likely to have obstetrical complications</td>
<td>More likely to have conduct problems</td>
<td>More likely to use harsh management techniques</td>
<td>Average annual loss of income of $10,400 by age 50</td>
<td>Families with a depressed parent experience lifetime income loss of $500,000</td>
</tr>
<tr>
<td>Less likely to breastfeed, or to breastfeed as long</td>

National efforts to address Maternal Mental Health

Advocacy, Awareness & Legislation

Quality, Surveillance, Standards
State of California’s efforts to address Maternal Mental Health

- Inpatient screening project
- MMH Think Tank
- White paper
- Training & Technical Assistance
- CA-PAMR 2.0 (maternal suicide)
- Legislative Work

Yolo County - Local Mental Health Board 06252018
So how is Yolo County doing with addressing Maternal Mental Health?

- Family medicine, pediatric and prenatal clinics across Yolo County were surveyed about practices, needs and beliefs related to MMH screening and treatment.
- Over 67 responses received representing the 5 major health systems in Yolo County.
- More than half of the responses were from licensed healthcare providers.
- A great majority: 65% of the respondents report screening for MMH Disorders at regular intervals.

Opportunities for Yolo County

- Treatment – Training to understand, recognize and treat
- Referral – identify and educate about available resources
- Screening – Policies to support + Training

- Full report available from the Yolo County MCAH Programs. Please email anna.Sutton@yolocounty.org for a PDF copy.

Item 8. Mental Health Director’s Report
Continuum of Care Workgroup – As we’ve discussed over the past two years, the County has prioritized creating a continuum of care ranging from prevention through intensive services in our adult criminal justice system. Over the past year, we have specifically embraced the Stepping Up movement, aimed at reducing the number of people in custody with mental health conditions. There is a steering committee and several subcommittees aligned with our sequential intercept map for the County. Please find attached a summary of our accomplishments for the year and plans for the coming year.

Staff Contact: Sandra Sigrist

Governor’s 18/19 budget – Last month’s Director report shared several of the Mental Health items funded in the Governor’s 18/19 proposed budget. Since the May revise additional information has come in and realignment, tax revenues, and vehicle license fees are all exceeding expectations. As such, the Governor has increased his investment in ending poverty. To this end, the CalWorks single allocation was restored to last year’s levels, Medi-Cal will see a slight increase for cost of living, and IHSS administrative costs were mitigated for counties. Perhaps the most exciting news regarding the 2018-19 Budget relates to the Social Security Income (SSI) hold harmless agreement. As you may know, our residents receiving SSI have historically been excluded from receiving CalFresh benefits, which has seriously limited their income and ability to live a healthy and safe lifestyle in the current California economy. This new change will allow SSI recipients to receive CalFresh without experiencing a simultaneous cut to SSI, which will increase their monthly income. This will go a long way in improving health outcomes and stability for some of our residents who struggle to make ends meet every month.

Staff Contact: Karen Larsen

County 18/19 budget – On June 12th, the Board of Supervisors approved our 2018/2019 interim County budget. The final budget for the fiscal year is approved several months from now when we have all of our final allocations from the State and Federal government. Of interest to all of you, we are proposing to add 11 new behavioral health positions. Transition Age Youth team will get four MHSA-funded staff -- 2 clinicians and 2 case managers. Additionally, the proposed new SB82 funding may add 4 Clinicians -- 2 for children and 2 for transition aged youth. Finally, 3 additional positions will be added to support the Substance Use Disorder Continuum of Care -- 1 Clinician and 2 Case Managers.

Staff Contact: Karen Larsen

Homelessness – The Governor has allocated $250 million statewide in Homeless Emergency Aid grants, of which we expect approximately $1.3 million to come to projects serving Yolo residents in the upcoming years.

*Staff Contact: Ian Evans*
Children’s Mental Health Services – The Child, Youth and Family branch released a Request for Proposal for the Children’s Outpatient Specialty Mental Health services for FY 2018-2020 and subsequently the intent to award notifications to four vendors. In person meetings with the potential vendors occurred on June 6th and budget/scope of work negotiations have been under way since then with focus on capacity and program development to best meet the increased need for behavioral services for children and youth, specifically for those involved with Child Welfare services and Juvenile Probation, and for those struggling with intensive needs which has resulted in psychiatric hospitalizations. Current contracts will be extended to provide time for thoughtful discussion and negotiations, and new contracts will begin August 1st. See graph below for details on programs and selected vendors.

Psychiatry Staffing – HHSA has welcomed our two newest physicians. Dr. Nora Kim and Dr. Kaan Ozbayrak joined us on June 11th and are both becoming familiar with our services and seeing clients in our Woodland and Davis Clinics. Dr. Kim will be seeing Transition Age Youth and Adults on Wednesdays in our Davis office starting on June 27th, and is already seeing TAY and adults in the Woodland Office on Thursdays and Fridays. Dr. Kaan Ozbayrak will be seeing Transition Age Youth and Adults in our Woodland Clinic Mondays-Fridays. He will also be seeing clients who are in Safe Harbor, along with our tele-psychiatrist, Dr. Zev Wiener who provides tele-psychiatry services on Mondays and Thursdays in the Woodland office. We now have a very strong, knowledgeable and kind group of doctors to serve our community. We are delighted for them to get to know you and you to get to know them over the coming months.

Data – 2017 Consumer Perception Survey Results (Spring and Fall)

Yolo County Health and Human Services Agency (HHSA) administers the Consumer Perception (CP) Surveys twice per year to give consumers and family members a formalized opportunity to provide feedback on the behavioral health services they are receiving from HHSA and community contract providers. Surveys are administered using a point-in-time convenience sampling methodology during one week in May and one week in November. Preliminary results from Spring and Fall 2017 indicate that, of the total surveys returned (on average 542), the majority were represented services from community providers (79%) and most of the respondents were adults age 18-59 (61%). During both
Spring and Fall 2017, General Satisfaction with Services was the highest Domain for adults and older adults (ranging from 84% to 87% satisfaction responses), and Service Cultural Sensitivity was the highest Domain for youth and family of youth (ranging from 86% to 97% satisfaction responses). Alternatively, Improved Outcomes and Functioning were the lowest Domains across all four survey populations in 2017 (ranging from 62% to 73% satisfaction responses).

These preliminary results suggest, while clients and family members completing CP Surveys are generally satisfied with aspects of their care (e.g., staff treated them with respect, were sensitive to their cultural / ethnic / spiritual backgrounds; they would recommend services to others), an area for further exploration and potential improvement is around outcomes of care (e.g., increasing clients’ ability to manage symptoms and crises, improve functioning in life domains such as school, work, housing, social relationships, etc.).
Item 9. Annual Report 17-18
Local Mental Health Board 2017-2018 Annual Report

Membership and Duties

In the last twelve months since the last report to the Yolo County Board of Supervisors (BOS) from the Yolo County Local Mental Health Board (LMHB), there has been some turn over experienced by the Board. In 2018 we have added three new board members, Antonia Tsobanoudis, Serena Durand, and Ben Rose. Our executive leadership is comprised of Chair James Glica-Hernandez, Vice-Chair Nicki King and Secretary/Treasurer Reed Walker.

A roster of our current members is below

The dedicated and talented members of the LMHB deeply consider all issues brought before them and engage discussions ranging from the selection of the appropriate name of the advisory body to hearing the concerns of the public regarding mental health services and making recommendations to the Health and Human Services Agency (HHSA). The LMHB is concerned with reaching out and addressing the concerns of our diverse county from the rural to the urban centers within Yolo County.

Growth and Action

The LMHB continues to oversee and provide support and recommendations to the Health and Human Services Agency (HHSA). LMHB members have received presentations from various HHSA department heads and receive ongoing education on the many areas of service which fall under the HHSA umbrella. LMHB members have heard presentations about West Sacramento’s
Crisis Center and the 5150 Process. West Sacramento has been a particular focus for LMHB members, as the board has noted a need for increased services to this community. The LMHB has heard presentations on the homeless population in Yolo County and HHSA’s ongoing efforts to providing housing and support services for homeless individuals. The LMHB has also received presentations on Substance Use Disorder, Children’s Services and particularly how HHSA and the Yolo County courts work together to protect the most vulnerable citizens of Yolo County, our children. Additionally, the LMHB received its yearly budget update, which demonstrates how HHSA provides mental health services in a fiscally responsible manner. As an advisory body, the LMHB strives to increase their knowledge and collaboration with various departments and HHSA, with an ongoing focus on Substance Use Disorder, the Public Guardian’s Office, Child Youth and Family Services and Homeless Services.

LMHB members have also been working on organizing site visits to various mental health facilities and other programs throughout Yolo County. Members want to make sure they are truly reaching out to citizens to hear their concerns. After identifying the needs of the community, the board will be able to better advocate for individuals receiving mental health services, and improve the systems and quality of care they receive with the goal of improving overall quality of life. Board members feel strongly that visiting sites is of the utmost importance, and it is their responsibility to reach out to the community in this manner. Planning for site visits began this year and will be an ongoing way for the LMHB to connect with the community.

The LMHB was excited to hear presentations on the new Wellness Center in Davis with a focus on serving Transition Age Youth (TAY) and expand adult mental health services to the Davis population. Members of the LMHB were present for the opening of the StayWell center at Woodland Community College, which serves a wide range of individuals. The members of the LMHB are proponents of wrap-around services work with multiple systems of care to deliver services and address the needs of whole person care by engaging in partnerships with various local organizations. A major need within the community is adequate housing for Yolo County residents receiving services. LMHB members are exploring various models and solutions that strive to improve the quality of life for vulnerable populations within our community. The LMHB is engaging rural communities by holding meetings in smaller communities, such as happened in Winters this past May. Yolo County is also in the process of building a supportive housing model in Woodland with Mental Health Services Act Funding.

The LMHB is heavily engaged in reviewing ways to avoid the termination of a highly valued program due to cuts in state funding. The Crisis Intervention Program (CIP) was a new venture for Yolo County and was heralded by not only by mental health clients, but also by law enforcement and clinical staff. Public commentary lamented the loss of the CIP Program and prompted conversation about ways to reconstruct the CIP program utilizing other funding sources to ensure the longevity of this necessary program. Fortunately, the Crisis Intervention Program was reconstituted as the Mobile Crisis Unit within HHSA.

In the interest of providing ongoing education to the board, new members of the board completed ethics training, as required by California law (AB 1234, Chapter 700, Stats. Of 2005). This year it was a great honor to have the LMHB Chair, James Glica-Hernandez, elected to the California
Asociation of Local Behavioral Health Board and Commissions (CALBHBC). Also in partnership with the CALBHBC, the LMHB contributed to the Data Notebook report, which focused on the older adult population. Data analysis has been at the forefront of the board’s goals and decision-making process. Data has therefore become an integrated piece of each meeting and continues to be an essential decision making tool for board members.

**Upcoming Challenges and Activities**

One of the LMHB’s greatest upcoming challenges is how to help Pine Tree Gardens remain a viable community-based residential program. Pine Tree Gardens was originally created by the mental health pioneers, Pat and Bill Williams. Pine Tree Gardens has a long history in Davis and is an essential housing resource for the community. Pine Tree Gardens has encountered a difficult financial situation and the operators of the facility have met with the LMHB’s Pine Tree Garden’s Ad-Hoc Committee to discuss possible solutions to their operational difficulties. This challenging issue has brought all parties to the table, including Pine Tree Gardens staff and leadership, HHSA’s director and branch directors and LMHB members in an attempt to preserve this community resource.

Looking forward, the LMHB would like to increase outreach to the community and increase accessibility to services for unserved or underserved communities, such as Spanish and Russian speakers, the LGBTQ community, and undocumented individuals who have limited access to services. In the coming year, we also anticipate increased focus on working with law enforcement, transportation services for clients, newly opened Wellness Centers and continuing to expand the “no wrong door” model. “No wrong door” means that no matter where a client enters the system, they are connected to the multitude of services that the integrated Health and Human Services system has to offer. This model will provide the highest level of care for members in our community receiving mental health and medical services.

**Summary**

With the addition of our new board members, we want to build on our success and support HHSA in their goals. We are also building our community engagement as we continue to reach out and listen to the needs of our clients and staff on the issues that affect them directly. The LMHB continues to be a voice and a means of action for those receiving mental health services in Yolo County. The LMHB looks forward to another year of challenges and discussions with a very insightful and talented group of individuals. LMHB members care deeply and strive to serve those who need a voice in the field of mental/behavioral health.
