ORDER OF THE YOLO COUNTY PUBLIC HEALTH OFFICER NO. 2020-03

DATE OF ORDER: December 2, 2020

Please read this Order carefully. Violation of, or failure to comply with, this Order is a public nuisance subject to citation, abatement, or both, as well as a misdemeanor punishable by fine, imprisonment, or both. (California Government Code § 8634 and 8665; California Health and Safety Code §§ 120155, 120220, 120275, 120295; California Penal Code § 69, 148(a)(1); Executive Orders 25-20 and 60-20.

SUMMARY OF THIS ORDER

This Order supersedes and replaces Order No. 2020-02 (issued May 8, 2020), which included various restrictions applicable to access, patient visitation, and other aspects of the operation of Long-Term Care Facilities. As set forth herein, various state-issued “all facility letters” and other state and federal agency documents now address many of the same topics covered in Order No. 2020-02. The County Health Officer has thus determined that it is appropriate to rescind Order No. 2020-02 and direct local Long-Term Care Facilities to operate in accordance with applicable state directives.

The Health Officer will continue to assess the public health situation as it evolves and may modify this Order, or issue additional Orders, related to COVID-19, as changing circumstances dictate.

ORDER

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, 120175, AND 120220, THE HEALTH OFFICER OF THE COUNTY OF YOLO (“HEALTH OFFICER”) HEREBY ORDERS AS FOLLOWS:

1. Effective as of the date of this Order, Order No. 2020-02 is rescinded and shall be of no further force or effect. Each Long-Term Care Facility listed in Section 7, below, shall handle matters of facility access, patient visitation, testing, and other matters relating to COVID-19 in accordance with applicable state and federal directives. Such directives include, but are not limited to, the following:

   - **Provider Information Notice (PIN) 20-04-ASC, 20-23-ASC, 20-38-ASC, and 20-42-ASC
   - Centers for Medicare and Medicaid Services (CMS) Memorandum QSO-20-39-NH
Each Long-Term Care Facility shall comply with the directives that apply to it, and nothing in this Order is intended to also require a facility to comply with directives applicable to other types of Long-Term Care Facilities. By way of example only, AFL 20-22.5 applies to skilled nursing facilities regulated by the California Department of Public Health and does not apply to certain other Long-Term Care Facilities regulated by the California Department of Social Services. All Long-Term Care Facilities must also comply with other applicable provisions of California law, including but not limited to regulations relating to communicable diseases set forth in section 2500 of Title 17 of the California Code of Regulations.

**To ensure clarity and consistency in the implementation of this Order, to the extent any of the foregoing Provider Information Notices contain language that may be read as guidance only, rather than as a directive, this Order requires each Long-Term Care Facility to treat such language as mandatory and binding.**

2. Effective December 15, 2020, each Long-Term Care Facility listed in Section 6 below must implement twice-weekly COVID-19 screening testing of all staff working in the Facility. Staff previously diagnosed with COVID-19 who remain asymptomatic after recovery are exempt from testing for 90 days after the date of symptom onset for the initial COVID-19 infection or date of positive test for staff who never developed symptoms. Staff who are not employed by the Facility but work within the Facility regularly must also be tested twice weekly for COVID-19 by either the Facility or their employer.

3. Nothing in this Order modifies or otherwise affects the implementation of existing, generally applicable County Health Officer orders relating to face coverings, physical distancing, and business and activity restrictions necessary to align the County with its current tier assignment in the state’s blueprint (see www.covid19.ca.gov for more information). To the extent provisions of those orders may apply to Long-Term Care Facilities and are not in conflict with more restrictive provisions of any applicable state and federal agency directives, those orders shall continue to apply.

4. This Order is issued based on scientific evidence and best practices as currently known and available to prevent the spread of the virus that causes COVID-19 to the residents at the Long-Term Care Facility and to protect those residents from avoidable risk of serious illness or death resulting from COVID-19. The age and underlying health conditions of a significant majority of Long-Term Care Facility residents place those residents at high risk of experiencing serious health complications from COVID-19, including death. This Order is also issued in accordance with, and incorporates by reference, the following authorities:

- The March 4, 2020 Proclamation of a State of Emergency issued by Governor Newsom
- The March 6, 2020 Proclamation by the Director of Emergency Services Declaring the Existence of a Local Emergency in the County
- The March 6, 2020 Declaration of Local Health Emergency Regarding Novel Coronavirus 2019 (COVID-19) issued by the Health Officer

▪ The March 12, 2020 Executive Order (Executive Order N-25-20) issued by Governor Newsom
▪ The March 18, 2020 Shelter in Place Order issued by the County Health Officer (referred to herein as the Local Shelter Order)

▪ The July 1, 2020 announcements by Governor Newsom relating to the increasing spread of COVID-19 and restrictions on some economic sectors in 19 counties
▪ All material posted to the COVID19.CA.GOV webpage that is clearly intended as a binding directive by the state, including through language in Executive Orders 25-20 and 60-20 directing residents to heed or obey state public health directives
▪ Guidance issued by the CDPH and CDC, as each of them have been and may be supplemented over time
▪ The August 28, 2020 Order of the State Public Health Officer providing a tiered system for business and activity reopenings
▪ The November 16, 2020 Guidance for the Use of Face Coverings issued by the California Department of Public Health

5. While this Order is in effect, the Long-Term Care Facility must provide copies of the Order in all of the following ways: (1) post this Order on the Long-Term Care Facility website (if any); (2) post this Order at all entrances to the Long-Term Care Facility; (3) provide this Order to each Long-Term Care Facility resident; (4) provide this Order to any authorized decision maker for each Long-Term Care Facility resident if not the resident; (5) provide this Order to the Long-Term Care Facility Ombudsperson (if any); and (6) offer to anyone who visits the Long-Term Care Facility or who contacts the Long-Term Care Facility seeking to visit.

between a local order and any state public health order related to the COVID-19 pandemic, the
most restrictive provision controls pursuant to, and consistent with, California Health and Safety
Code § 131080 and the Health Officer Practice Guide for Communicable Disease Control in
California, unless the State Health Officer issues an order that expressly determines a provision
of a local public health order is a menace to public health.

compliance with and enforce this Order. The violation of any provision of this Order
constitutes an imminent threat and menace to public health, constitutes a public nuisance,

misdemeanor by fine, imprisonment, or both. Other administrative and judicial remedies
are also available.

11. Copies of this Order shall promptly be: (1) made available at the County

website (www.yolocounty.org); and (3) provided to any member of the public requesting a copy
of this Order.

12. If any provision of this Order or its application to any person or circumstance is
held to be invalid, the reminder of the Order, including the application of such part or provision
to other persons or circumstances, shall not be affected and shall continue in full force and effect.
To this end, the provisions of this Order are severable.
