

What will the nurse discuss with me?

- Pregnancy
- Baby and child health
- Breastfeeding
- Child growth and development
- Birth Control
- Parenting and relationships
- Household Safety/Child Safety
- Nutrition and food resources
- Immunizations

We want to work together with you to enhance health and wellness for you and your family.

What else will the Public Health Nurse do during the visit?

- Weigh and measure you and your baby
- Listen to your concerns
- Bring you educational material
- Provide information about community resources
