Yolo County, CA Code of Ordinances Sec. 7-1.04 (Section 105.5 Expiration). Every permit issued by the building official under the provisions of this code shall expire by limitation and become null and void if the building, structure, equipment or work authorized by such permit is not commenced within 180 days from the date of such permit, or if the building, structure, equipment or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days. Before such work can be recommenced, a new permit shall be first obtained to do so, and the fee therefore shall be one-half the amount required for a new permit for such work as set forth in the current fee schedule as adopted by the Board of Supervisors, provided no changes have been made or will be made to the original plans or specifications for such work, and provided further that such suspension or abandonment has not exceeded one year.

Any permittee holding an unexpired permit may apply for an extension of the time within which work may commence under that permit when the permittee is unable to commence work within the time frame required by this section for good and satisfactory reasons. The building official is authorized to grant, in writing, one or more extensions of time, for periods not more than 180 days each. The extension shall be requested in writing with justifiable cause demonstrated and accompanied by an extension request review fee, as required by the current fee schedule as adopted by the Board of Supervisors.
