August 13, 2019

State Water Resources Control Board
Division of Drinking Water
Salvador Turrubiartes, P.E., Associate Sanitary Engineer
1001 I St, 13th Floor
Sacramento, CA 95834

Mr. Turrubiartes,

Specialized Utilities Services Program, Inc., on behalf of the Wild Wings C.S.A. has prepared and is submitting to the Division of Drinking Water, the July 2019 Monthly Water Monitoring Report.

Enclosed are the July Monthly Water System Flow Report, Summary of Distribution System Coliform Monitoring Report, the laboratory analytical results for bacteriological testing,

Please contact me if you have any questions.

Sincerely yours,

Dan DeMoss,
Operator
Phone: (916) 616-7761
Email: ddemoss@calruralwater.org
MONTHLY SUMMARY OF DISTRIBUTION SYSTEM
COLIFORM MONITORING

System Name
Wild Wings

System Number
5710011

Sampling Period
July

Year
2019

1. Routine Samples (see note 1)
   Number Required
   Number Collected
   Number Total Coliform Positives
   Number Fecal/ E.coli Positives
   2
   2
   0
   0

2. Repeat Samples Following Samples Which Are Total Coliform Positive and Fecal/E.coli Negative (see notes 5 and 6)
   Number Required
   Number Collected
   Number Total Coliform Positives
   Number Fecal/ E.coli Positives
   0
   0
   0
   0

3. Repeat Samples Following Routine Samples Which Are Total Coliform Positive and Fecal/E.coli Positive (see notes 5 and 6)
   Number Required
   Number Collected
   Number Total Coliform Positives
   Number Fecal/ E.coli Positives
   0
   0
   0
   0

4. MCL Computation For Total Coliform Positive Samples
   a. Totals (sum of columns)
      Number Required
      Number Collected
      Number Total Coliform Positives
      Number Fecal/ E.coli Positives
      0
      0
      0
      0
   b. If 40 or more samples collected in month, determine percent of samples that are total coliform positive
      ([total number positive/total number collected] x 100)
      0
   c. Is system in compliance…with fecal/E. coli MCL?
      ☐ Yes ☐ No
      (see notes 2 and 3)
   d. Is system in compliance…with monthly MCL?
      ☐ Yes ☐ No
      (see note 4)

5. Invalidated Samples
   (Note what samples, if any, were invalidated; who authorized the invalidation; and when replacement samples were collected. Attach additional sheets, if necessary.)

6. Summary Completed By
   Signature
   Title
   Water Operator
   Date 8/13/2019

NOTES AND INSTRUCTIONS:
1. Routine samples include:
   a. Samples required pursuant to 22 CCR Section 64423, and any additional samples required by an approved routine sample siting plan established pursuant to 22 CCR Section 64422.
   b. Extra samples required for systems collecting less than five routine samples per month that had one or more total coliform positives in previous month;
   c. Extra samples for systems with high source water turbidities that are using surface water or groundwater under direct influence of surface water and do not practice filtration in compliance with regulations;
2. Note: For a repeat sample following a total coliform positive sample, any fecal/E.coli positive repeat (boxed entry) constitutes an MCL violation and requires immediate notification to the department (22, CCR, Section 64426.1).
3. Note: For repeat sample following a fecal/E.coli positive sample, any total coliform positive repeat (boxed entry) constitutes an MCL violation and requires immediate notification to the department (22, CCR, Section 64426.4).
4. Total coliform MCL (Notify Department within 24 hours of MCL violation):
   a. For systems collecting less than 40 samples, if two or more samples are total coliform positive, then the MCL is violated.
   b. For systems collecting 40 or more samples, if more than 5.0 percent of samples collected are total coliform positive, then the MCL is violated.
   c. Positive results and their associated repeat samples must be tracked on the worksheet on the other side.
   d. For systems collecting more than one routine sample per month, three repeat samples must be collected for each total coliform positive sample. Repeat samples must be collected within 24 hours of being notified of the positive results.
   e. For systems collecting one or less routine samples per month, four repeat samples must be collected for each total coliform positive sample.
