Situation Update:
This CAHAN supersedes the January 31, 2020 Yolo County CAHAN. Please use the links below, as they are updated more frequently than this CAHAN.

Recommendations and guidelines are subject to change as additional information becomes available.

Actions Requested of Healthcare Systems and Clinicians:

1. **MASK** all patients with respiratory symptoms immediately upon arrival at your facility.

2. **IDENTIFY ALL** individuals with the following clinical features or epidemiologic risk:

<table>
<thead>
<tr>
<th>Clinical Features</th>
<th>&amp;</th>
<th>Epidemiologic Risk</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fever (subjective or confirmed) or signs/symptoms of lower respiratory illness (e.g. cough or shortness of breath)</td>
<td><strong>AND</strong></td>
<td>Any person, including healthcare workers, who has had close contact with a laboratory-confirmed COVID-19 patient within 14 days of symptom onset</td>
</tr>
<tr>
<td>Fever (subjective or confirmed) and signs/symptoms of a lower respiratory illness (e.g., cough or shortness of breath) requiring hospitalization</td>
<td><strong>AND</strong></td>
<td>A history of travel from affected geographic areas below, within 14 days of symptom onset:</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• China</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Iran</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Italy</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Japan</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• South Korea</td>
</tr>
<tr>
<td>Fever (subjective or confirmed) with severe acute lower respiratory illness (e.g., pneumonia, ARDS) requiring hospitalization and without alternative explanatory diagnosis (e.g., influenza)(^\text{\textsuperscript{5}})</td>
<td><strong>AND</strong></td>
<td>No source of exposure has been identified</td>
</tr>
</tbody>
</table>

3.
• If available telephone and video triage is preferred.

**Triage for PUI Evaluation**

- History of travel to China, Iran, Italy, Japan, or South Korea:
  - City and province or state of travel
  - Departure date
  - United States arrival date
  - Were they screened at a US airport?
- Did you have close contact with someone diagnosed with COVID-19?
- Have you had extensive and close contact with vulnerable patients in healthcare settings?
- Symptoms:
  - Fever?
  - Respiratory? (Cough, Shortness of Breath)
- Where is the patient currently?
  - City of residence
  - Home/Hospital/At the clinic

4. **CONTACT Yolo County** BY PHONE 24/7 to discuss patients in Yolo County meeting CDC criteria for individuals who need additional evaluation to rule out novel coronavirus (COVID-19).
   - The Yolo County Public Health and your agency Infection Preventionist phone numbers should be posted where any TRIAGE or APPOINTMENT SCHEDULING is occurring.
   - Fax completed Confidential Morbidity Report (CMR) to the confidential fax line (530) 669-1549.

5. Yolo County HHSA is also encouraging our healthcare partners to access CDC Preparedness resources here:

### Yolo County Public Health

Business Hours (8 am – 5 pm): **530-681-0409**
After hours (5 pm – 8am) and Weekends Duty Officer: **530-321-3620**

**Resources:**

For infection control issues, please check the Centers for Disease Control and Prevention Guidance documents, All-Facilities Letters (AFLs), and CDPH Guidance documents and CAHANs.
