

# ROADMAP TO RECOVERY: Facial Coverings

The Roadmap to Recovery health order requires  
facial coverings be worn when in public.

## What You Need to Know

Face Covering are **REQUIRED** in public spaces including on Public Transit (rideshares /taxis) and when working an essential job that interacts with people.

Covering your face protects others, by doing so you are being a good neighbor and community member.

Face coverings should be fitted snugly against the side of the face and should be kept clean. Learn more at: <https://bit.ly/2xlawXP>

The shelter-in-place order, continues to require people to stay home as much as possible and maintain physical distancing by staying 6 feet from others.

Face Coverings are **NOT** required for children under 2, for those for which they pose a health or safety risk (as documented by your doctor or in established worksite guidelines), or for those who are hearing impaired and use facial or mouth movements as part of communication.

Children 2 years and older should be encouraged to wear a mask when around others closer than 6 feet. When they do, they must be supervised by an adult.

Facial coverings are **NOT** required at home, when in your car alone or with members of your household, or when exercising outdoors away from people.

Find more information about facial covering guidance for the Roadmap to Recovery at: <https://www.yolocounty.org/coronavirus-roadmap>.
