**Guidelines for Being at Work**

### Face Covering:
- Face coverings are required any time an employee is in common areas and hallways where you are not able to maintain 6 ft. apart, including interactions with the public.
- If in a private office, cubicle, or workstation where 6 ft. of distance can continuously be maintained, a face covering is not required.

### Employees who interact with the public should:
- Wear face coverings when interacting with the public.
- Ask the public to cover their face in accordance with the Yolo County Health Officer’s Order.
- Wash hands immediately following public interaction or use hand sanitizer.
- Sanitize any items that were used during the interaction.

### Other Guidelines:
- Tech items should not be shared such as computers, phones, headphones, etc.
- Wash hands frequently or use hand sanitizer.
- Sneeze or cough into elbow or a tissue, and dispose of the tissue properly.
- Stay home if sick.
COVID-19 Preventative Health Measures to Keep Employees Safe

**FACE COVERINGS MUST:**

- Be worn in the workplace, at work functions, while riding public transportation, in checkout lines at grocery stores, and in any area where other employees, customers, and visitors are in close proximity (within 6 feet) to one another.
- Be worn at all times when not eating or drinking.
- Be washed or replaced regularly.
- Be disposed of properly per OSHA guidelines.

**PRACTICE SOCIAL DISTANCING AND PREVENTIVE HYGIENE:**

- Practice social distancing by maintaining at least 6 feet of distance from others.
- Wash hands frequently using soap and water. If soap and water are not available, use an alcohol-based hand sanitizer.
- Cover your mouth and nose when you cough or sneeze. Wash your hands before and after touching any surfaces.
- Avoid touching your eyes, nose, or mouth.

**EMPLOYEES WHO INTERACT WITH THE PUBLIC SHOULD:**

- Wear a mask when interacting with the public in accordance with the County Public Health Office guidelines.
- Wash hands frequently using soap and water. If soap and water are not available, use an alcohol-based hand sanitizer.
- Use a mask that covers your nose and mouth.

**KEEP YOUR DISTANCE:**

- Maintain a minimumof 6 feet of distance between one another whenever possible.

**PRACTICE SOCIAL DISTANCING:**

- Wear masks when essential work requires it.
- Practice social distancing by maintaining at least 6 feet of distance from others.
- Wash hands frequently using soap and water. If soap and water are not available, use an alcohol-based hand sanitizer.
- Use a mask that covers your nose and mouth.

**MORE CLEANING PROTOCOLS:**

- Increase cleaning and disinfection frequency in areas where individuals can touch common surfaces.
- Clean high-touch surfaces frequently using EPA-registered disinfectants.
- Use a mask that covers your nose and mouth.
- Avoid touching your eyes, nose, or mouth.
- Avoid close contact (within 6 feet) with others, especially if you have symptoms of illness.
Moving Forward The Yolo Way

Your Human Resources Team invites you to participate in a live webinar series focused on the employees of Yolo County, featuring a variety of guests and topics related to our current COVID-19 centric work experience as well as an opportunity for Q & A.

THURSDAY, MAY 21, 2020 – 2:00 PM
Workplace Wellness & The COVID-19 Employee Toolkit
YES Team champions Alberto Lara and Natalie Dillon share the road map for the COVID-19 Employee Toolkit, focusing on wellness, engagement, and how this toolkit will help guide Yolo County staff as we navigate our return to work and the new normal.

THURSDAY, MAY 28, 2020 – 11:00 AM
The Science of Hope
Hope is the leading predictor of satisfaction and happiness in life and correlated to goal achievement, physical health, academic performance and organizational productivity. In an organizational context, hope can improve engagement and productivity. Kelly Johnston of Clarity Consulting shares how the science of hope can support us through the pandemic.

THURSDAY, JUNE 4, 2020 – 11:00 AM
The EOC Experience & Yolo’s Return to Work
Patrick Blacklock and Mindi Nunes share their experience leading the Emergency Operation Center (EOC) activation for COVID-19, how Yolo staff have collaborated in their Disaster Service Worker roles to guide the County through this crisis, and an overview of the next steps in the recovery.

TUESDAY, JUNE 9, 2020 – 11:00 AM
Ready or Not – Work Life Integration!
Strengths guru Adrian Ruiz of YDN offers a discussion on Strengths in a pandemic, his forecast for the future of organizational development, and how we can all continue to flex our talents in a time of extreme change.

TUESDAY, JUNE 16, 2020 – 11:00 AM
What’s New in Workforce Development
Human Resources Team members Makayla Leigh and Jenny Brown take you on a preview of the exciting new initiatives in Yolo County workforce development, including details on the Yolo Training Academy, Strengths in Yolo, hosted webinars, internal course development, and more.

Space is limited – register now!
Frequently Asked Questions

How can we accommodate employees who fall into one of the “vulnerable groups” such as over age 65 and/or with a chronic underlying medical condition?

Employees with known pre-existing conditions, including underlying health conditions or compromised immune systems, should telecommute to the greatest extent possible. Where that is not feasible, they should work in areas where physical distancing is greatest, such as a private office. Please contact Human Resources for assistance with the ADA process, if applicable.

How will employees know when and where to report for work?

Employees will be notified by their Department Head or their designee of the date of reopening and the location and time that they should report.

Can my department continue and/or expand work from home?

Where possible and practical, Department Heads are encouraged to continue and/or expand telework where productivity and efficiency of the department operations can be maintained. Employees should complete the teleworking agreement and the agreement should be approved by the Department.

What if I have an employee teleworking, and it’s not working out?

Supervisors should be monitoring telework and productivity. By doing so, they may be able to address and resolve any issues with working remotely. If they cannot, departments should work with Human Resources to determine the best course of action.

How can I get supplies to reduce the risk of transmission of COVID-19 to my office/worksite?

Departments should contact Purchasing for ongoing COVID-19 related supplies (including hand sanitizer, disinfecting wipes or spray, etc.) at procurement@yolocounty.org. Please include “COVID-19” in the email subject line.

For any special needs at high traffic counters or interview rooms, contact General Services for the Project Request form to start that process.

Sneeze guards will ONLY be installed in public facing/serving areas Departments should mitigate the risk between cubicles by staggering staff, implementing alternate staff shifts and/or re-purposing meeting rooms as staff space. Where the distancing requirements cannot be met, face coverings must be worn for those not medically exempt.
What is the maximum number of staff I can have at the workplace?

It depends on the worksite. If it’s a large open area and 6 feet of distance can be continuously maintained, then more people may be in the area. Department Heads should exercise their judgment on how many people should be in a location based upon the ability to maintain sufficient distance. In some cases, departments should consider alternating cubicles to allow sufficient distancing. Departments should consider closing or limiting access to common areas where personnel are likely to congregate and interact. Strict social distancing protocols must be maintained.

Should my employees be wearing face coverings in the workplace?

Any time an employee is in an area where they may come into contact with other employees, customers, or the public they should wear a face covering. When in a private office, cubicle, or workstation where 6 feet of distance can continuously be maintained, they do not have to wear a covering. If a hallway is located close to work stations or cubicles, ensure that employees in the hallway are wearing face coverings. If your department needs face coverings, they can request them from Purchasing, who will issue two face coverings for each employee that requests it. (Note, N95 mask requests must go through the EOC)

What if my employee has a health condition such that their doctor recommends they don’t wear a face covering?

A Face Covering is not required if an individual can show a medical professional has advised that wearing a Face Covering may pose a risk to the individual for health-related reasons. A Face Covering should also not be used by anyone who has trouble breathing or is unconscious, incapacitated, or otherwise unable to remove the Face Covering without assistance.

Will the county provide me with signs/posters to post for employees and customers regarding social distancing and masking requirements?

Yes, the Public Information Officer (PIO) has developed signs for your use. If you need additional materials, please contact Jenny Tan.

Should my employees be wearing gloves?

If your employee wore gloves prior to the pandemic, they should continue to do so. Furthermore, gloves should only be used for picking up deliveries, handling money, handling mail and other items that have come to the employee. Gloves should be disposed of after each use. Handwashing and hand sanitizing remain the preferred method against spreading the virus. If your department needs gloves, you can order them directly or contact Purchasing.
If my employee must visit another department, can they do that?

If an employee must visit another department (for example, to make a deposit), they may do so. However, they should wear a face covering and should maintain social distance and handwashing/sanitizing procedures.

How can I make sure that employees maintain social distancing in the workplace?

Social distancing is a key to preventing the spread of COVID-19. Department Heads can stagger shifts to reduce the number of employees in the workplace. Employees should not congregate in common areas such as a workroom or kitchen. In some cases, the Department Head may have to close off or limit access to a common area to ensure that employees aren’t congregating. Departments can, where possible, make hallways or walkways one way so that employees don’t come face to face.

What if people must use a common copier, printer, or other equipment or be in a common work area such as a file room?

Use should be staggered to ensure that employees aren’t lining up at a machine. Commonly used items such as copiers, printers and door handles should be wiped down with disinfectant (wipes or spray) at the end of each day and, depending on use in the office, throughout the day. Departments may want to put a large bottle of hand sanitizer in common areas as well. If employees are in a common area together, they should be using a face covering and maintaining 6 feet of distance from others.

Can employees share a vehicle?

Unless absolutely necessary, two or more employees should not ride in a single vehicle at the same time. If it is necessary, both should wear face coverings and maintain as much distance as is safe and practical. Items that are touched, such as steering wheels and door handles should be wiped down with disinfectant (wipes or spray) after each use.

If we have counter shields or other physical barriers, do staff need to wear face coverings?

Shields or windows at public counters or interview booths do not replace the need for face coverings, they are just an added level of protection.

If an employee comes to work showing symptoms of COVID-19 or after known or suspected contact with an affected individual, can I ask the employee to leave work and go home?

Yes. Under the California Occupational Safety and Health Act (Cal-OSHA), the County is required to maintain safe and healthy working conditions for employees. If an employee is sent home from work they are expected to use leave balances. Notify HR immediately if you are sending an employee home for these reasons.

- Cleaning / janitorial protocols have been increased, using a disinfecting solution recommended for hospitals, long term/acute care facilities, healthcare facilities and veterinary clinics for use on high touch surfaces. They are wiping down all tables, doors, door knobs, empty desks, and hard surface cubicle areas, printer touch pads, any hard surface including chairs, garbage cans, windows, and public phones. Cleaning varies by department depending on the amount of public areas and request by departments. All areas frequented by the general public are given extra attention.

- Counter shields have been built and deployed in Community Services and ACE. More are being built/purchased for Child Support Services, Agriculture and HHSA.
